

### AIM

To build different types of reports in Zoho Creator so that the records stored in the Patient Appointment & Scheduling Management application forms can be viewed, grouped, and analysed easily.

### PROCEDURE

1. Log in to Zoho Creator and open the Patient Appointment & Scheduling Management application.
2. Add a few sample patient records (name, age, gender, email, contact number, residential address) to the Appointment Booking Form.
3. Create a List / Spreadsheet report to display the patient appointment records in tabular format.
4. Create a Kanban report grouped by a field such as Gender or Appointment Status.
5. Create a Calendar report using a date field such as Appointment Date.
6. Create a Map report using the residential address field of the patients.
7. Create a Pivot Table and a Pivot Chart to summarise the data by fields such as Age, Gender, or Patient Name.
8. Configure the columns, filters, and grouping for each report.
9. Preview every report, confirm that the data is correct, and capture screenshots.

### OUTPUT

| patient name  | Age | Gender | Email                        | Contact number | Residential Address                                        |
|---------------|-----|--------|------------------------------|----------------|------------------------------------------------------------|
| krithika      | 20  | Female | krithi@gmail.com             | +914567890098  | no.8 govindamal street, malaysia , tamil nadu, 77          |
| kuashalini hs | 21  | Female | kusha@gmail.com              | +913456789098  | no.56 thailand ladyboy street, bangkok, tamil nac Thailand |
| sairam r      | 23  | Male   | sairam34@gmail.com           | +913467890233  | thomas street, paris, tamil nadu, 638936, France           |
| Gunaj v       | 23  | Male   | gunaj74@gmail.com            | +9193473856392 | no.34,kuruku sandu,ruwaise, uae, tamil nadu, 38            |
| menaha r      | 20  | Female | menaharajkumar2208@gmail.com | +917809357860  | OS GARDEN , no.6 new street,madurai, chennai,              |

## RESULT

Thus, list, kanban, calendar, map, pivot table, and pivot chart reports were successfully created from the Patient Appointment & Scheduling Management application.
