Creating User Roles and Configuring Permissions in Zoho Creator

Aim

To create different user roles in Zoho Creator and configure appropriate permissions for each role to control access to the Patient Appointment & Scheduling Management application.

Procedure

1. Open the Patient Appointment & Scheduling Management application in Zoho Creator.
2. Navigate to Settings → User Permissions → Roles.
3. Click **Add Role** to create a new user role.
4. Create the required roles, such as:
 - Administrator
 - Doctor
 - Receptionist
5. Assign the appropriate permissions (Admin Access, Read, Write) to each role in the Permissions tab.
6. Configure access to forms, reports, pages, and other application components.
7. Assign users to their respective roles from Users in the Creator dashboard (Administrator – abc@gmail.com, Doctor – menaharajkumar2208@gmail.com, Receptionist – menahxmax@icloud.com).
8. Save the role and permission settings.
9. Log in or test the application with different user roles.
10. Verify that each user can access only the features permitted for their role.

Output

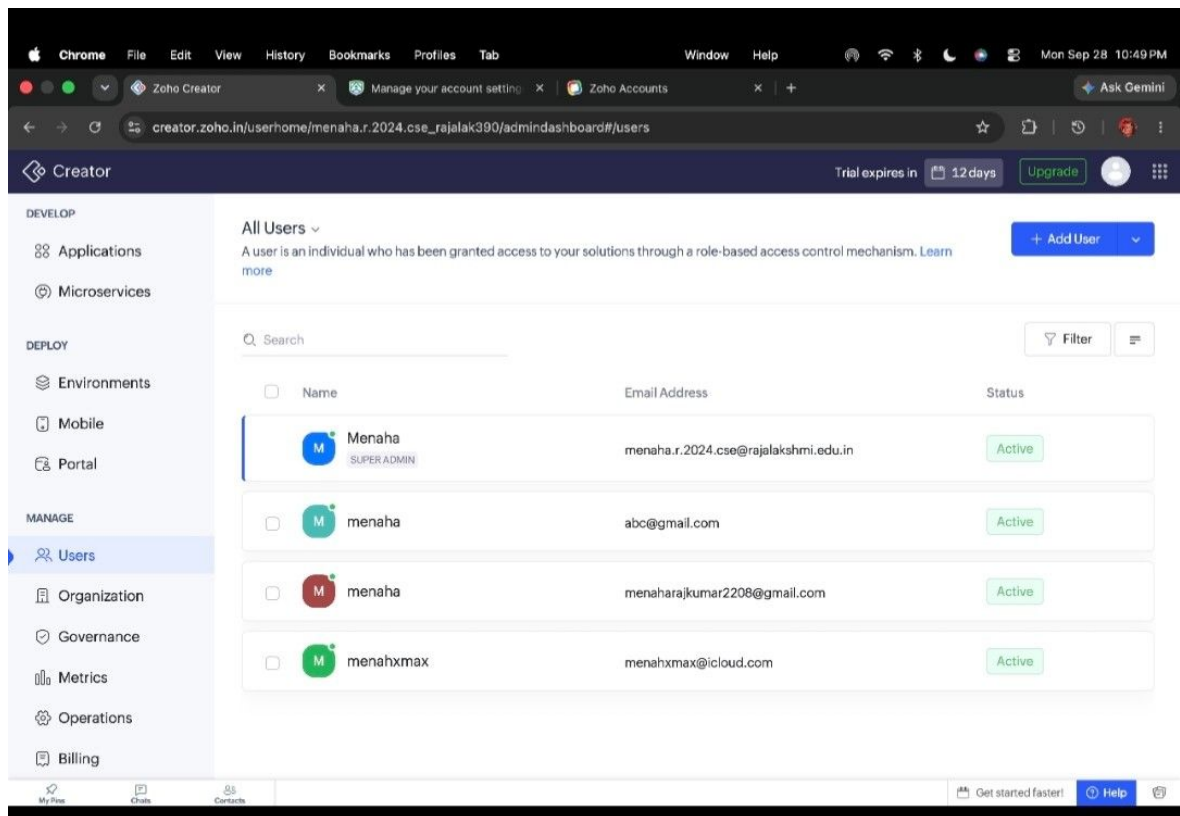

Fig 1. Creator dashboard – All Users list (Super Admin and added users)

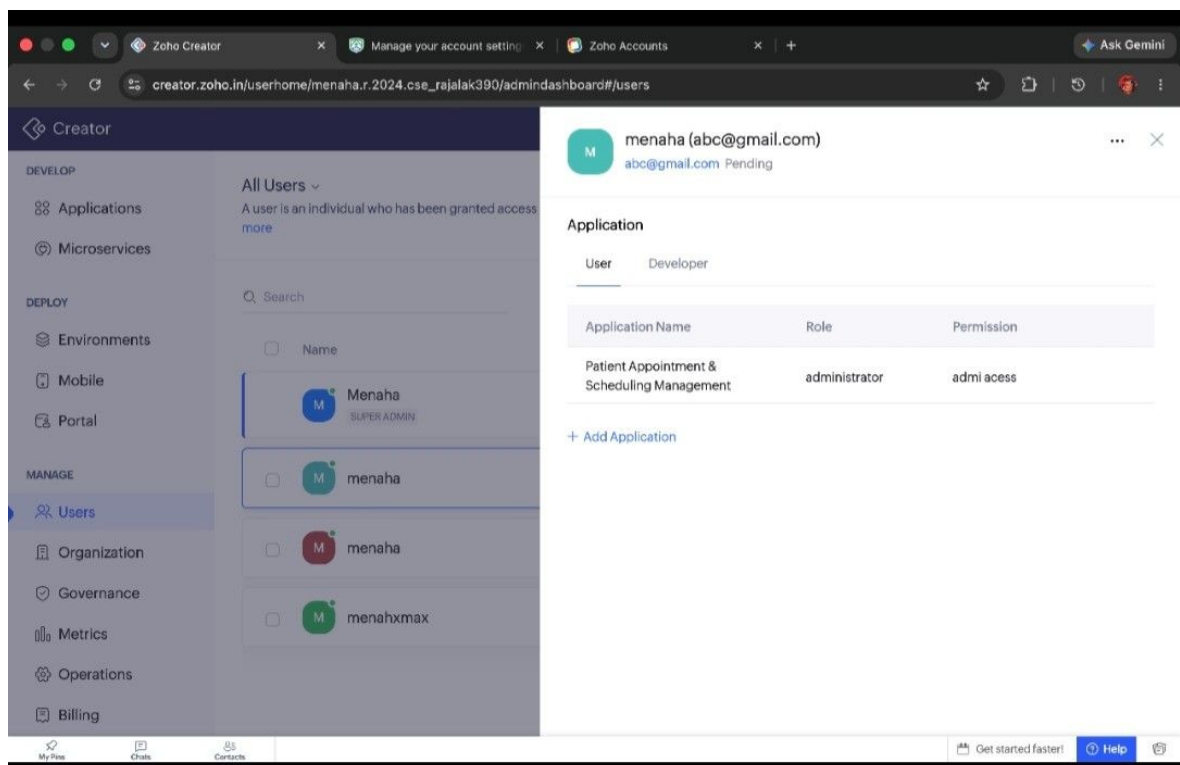

Fig 2. User menaha (abc@gmail.com) – Role: administrator, Permission: Admin Access

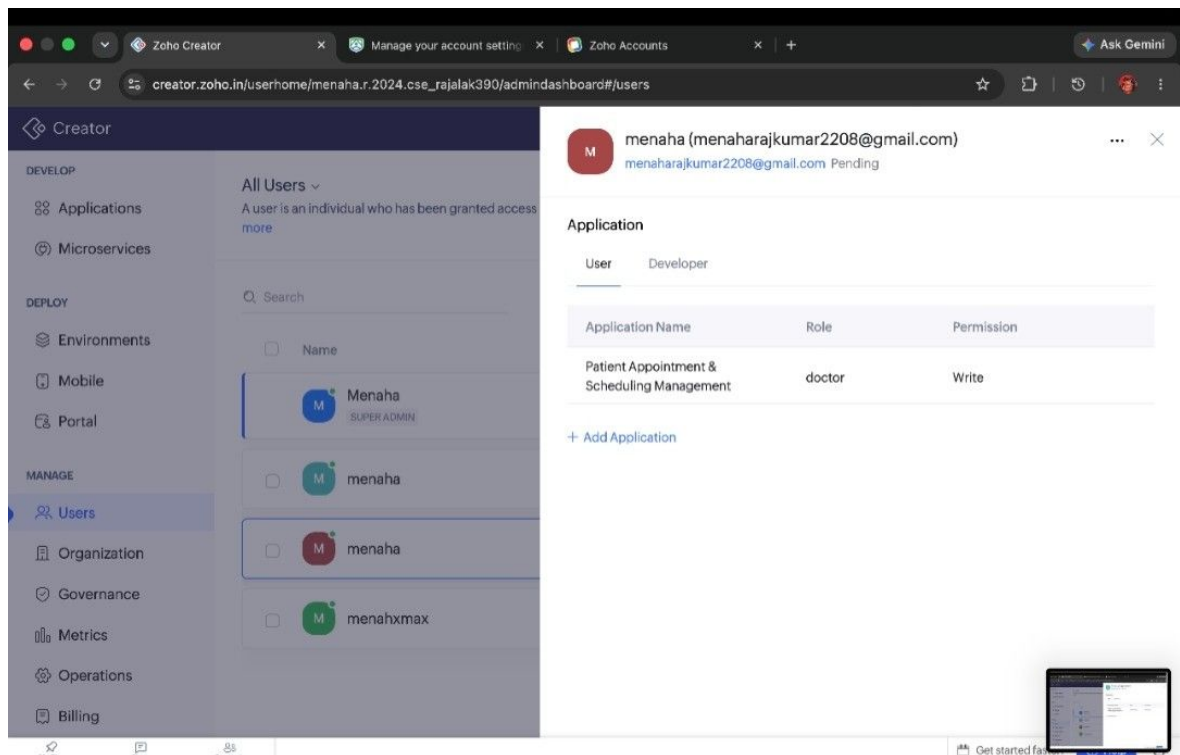

Fig 3. User menaha (menaharajkumar2208@gmail.com) – Role: doctor, Permission: Write

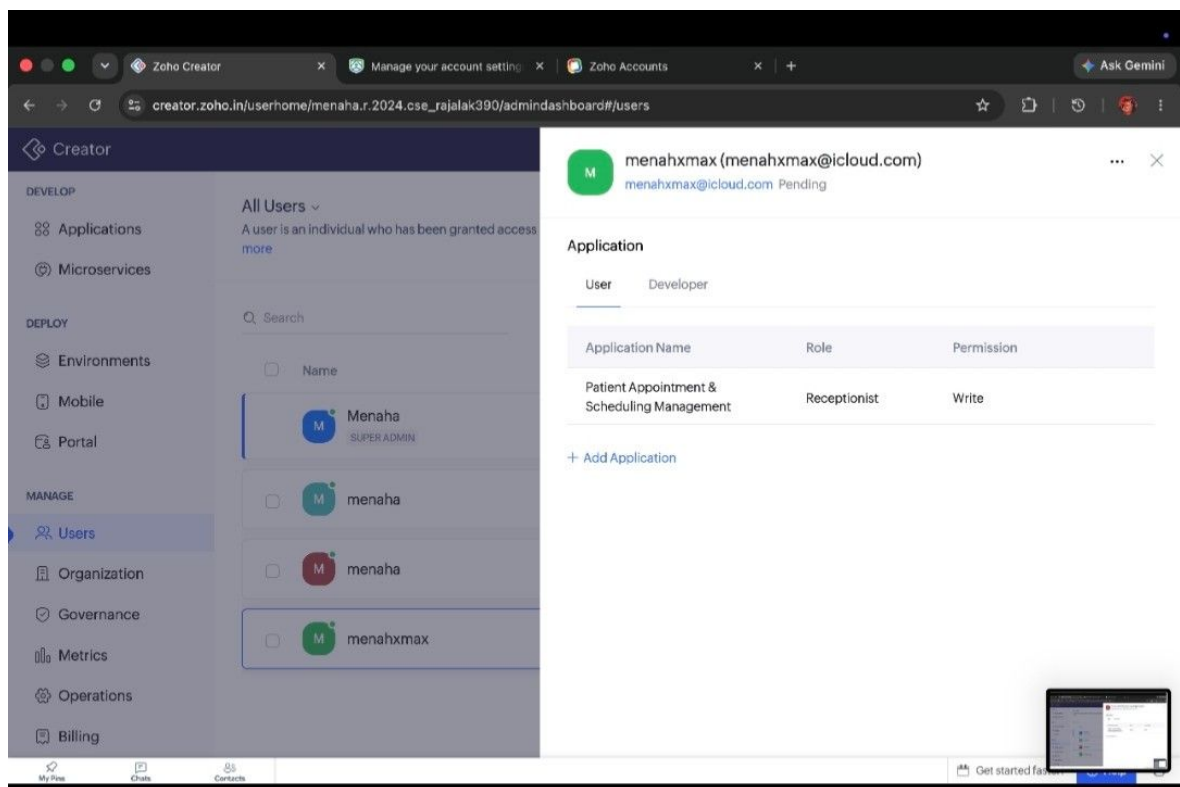

Fig 4. User menahxmax (menahxmax@icloud.com) – Role: Receptionist, Permission: Write

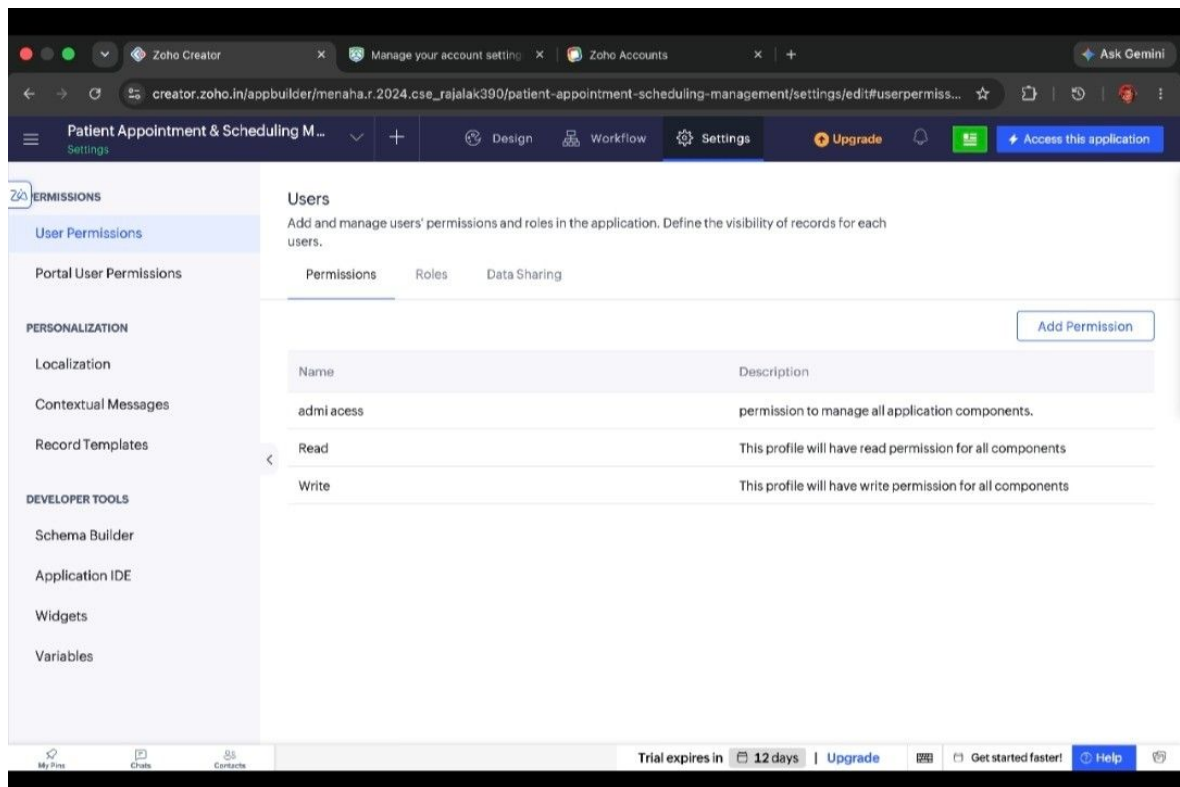

Fig 5. Settings → User Permissions → Permissions tab (Admin Access, Read, Write)

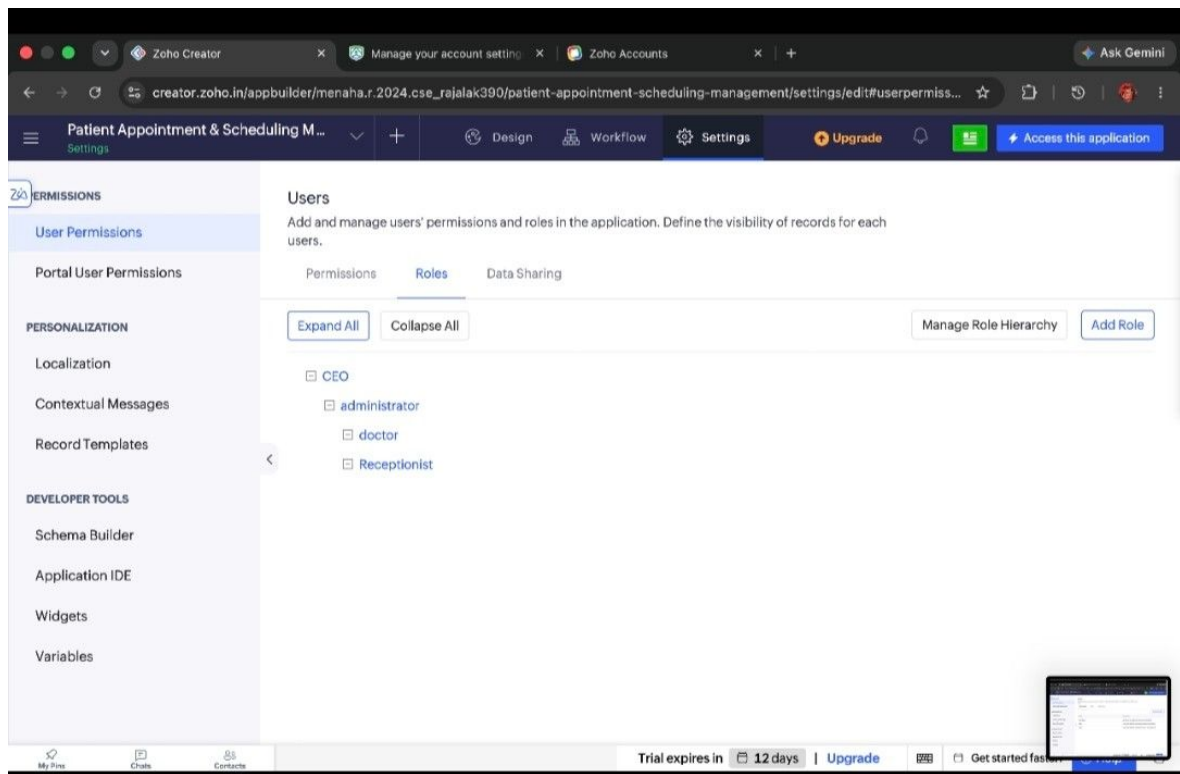

Fig 6. Settings → User Permissions → Roles tab – role hierarchy: CEO → administrator → doctor / Receptionist

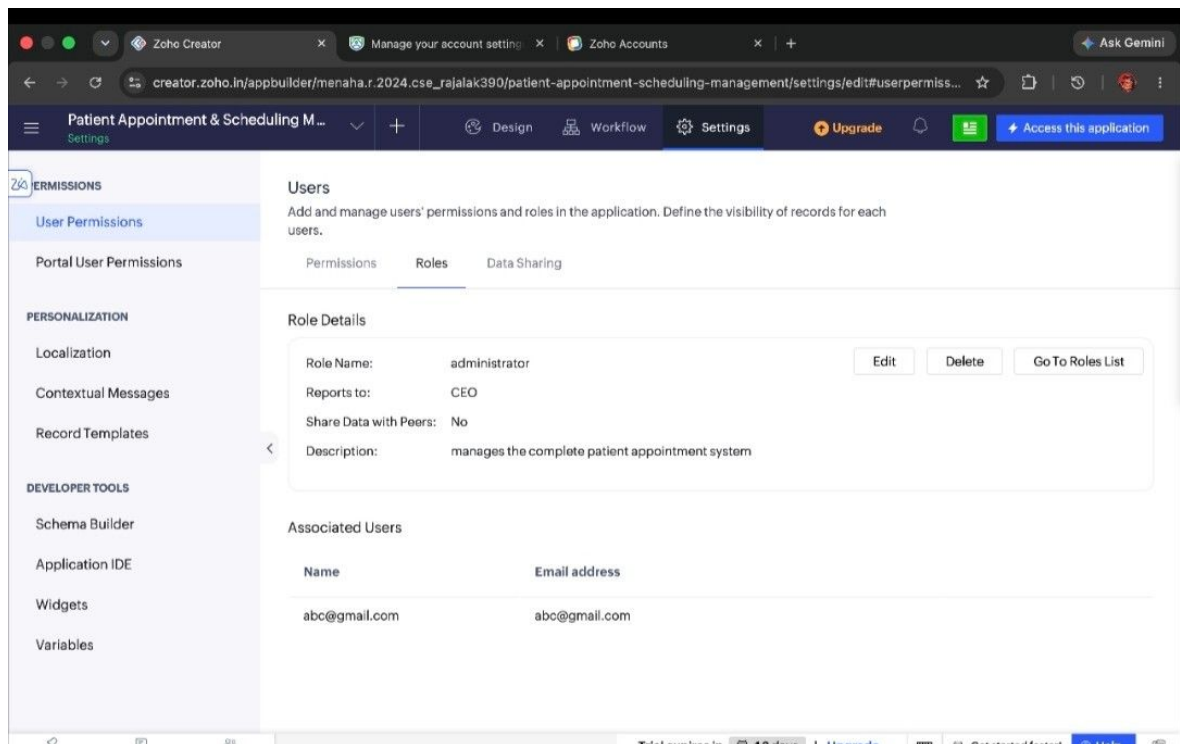

Fig 7. Role Details – administrator (reports to CEO; associated user abc@gmail.com)

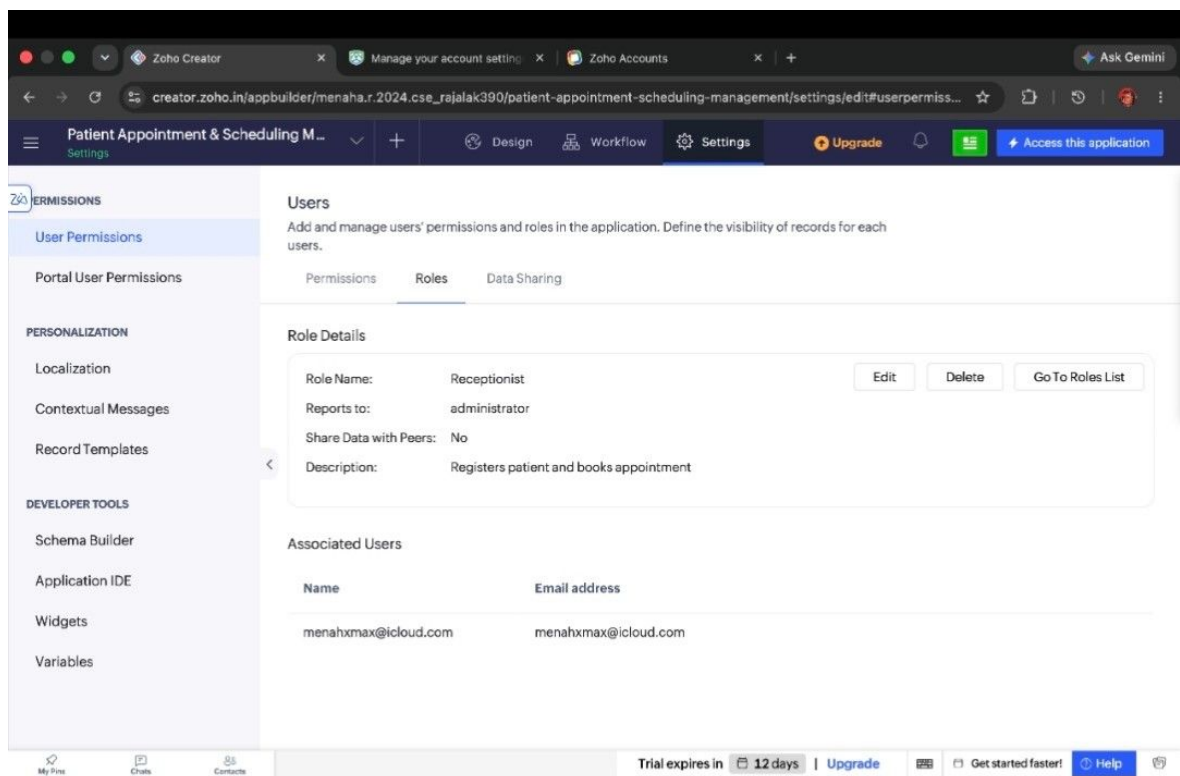

Fig 8. Role Details – Receptionist (reports to administrator; associated user menahxmax@icloud.com)

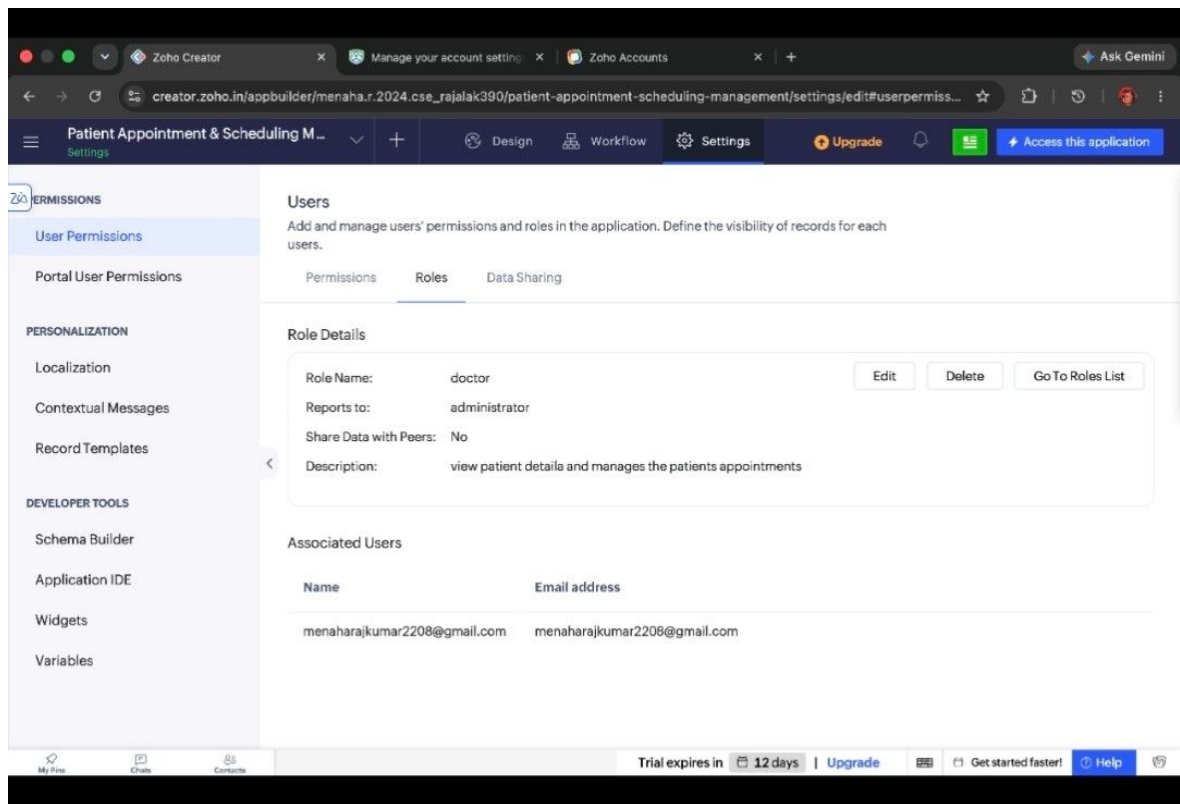

Fig 9. Role Details – doctor (reports to administrator; associated user menaharajkumar2208@gmail.com)

Result

Thus, different user roles and permissions were successfully created and configured in Zoho Creator to control access to the Patient Appointment & Scheduling Management application.
