

## Forms Design Using Zoho Creator

### AIM

To create and manage a patient appointment booking form using Zoho Creator for storing patient details, medical details, and appointment scheduling and consent information.

### PROCEDURE

1. Create a new application in Zoho Creator for Patient Appointment Management.
2. Create a form named **Appointment\_Booking\_Form** with the following three sections:
  - **Patient Details** – to store Patient Name, Age, Gender, Email, Contact Number, and Residential Address.
  - **Medical Details** – to store Referred\_by, Department, Symptoms/Description (Multi Line), and Existing Conditions.
  - **Scheduling & Consent** – to store Preferred Appointment Date, Preferred Appointment Time, and Consent for Treatment.
3. Add suitable field types such as Name, Number, Radio (Gender: Female, Male, Others), Email, Phone, Address, Single Line, Dropdown (Department, Existing Conditions), Multi Line, Date, Time, and Decision Box (Checkbox).
4. Configure the required (mandatory) fields such as Age, Gender, Email, Contact Number, Department, Existing Conditions, Preferred Appointment Date and Time, and Consent for Treatment, and add field hints such as “patient full name” and “patient age”.
5. Arrange the fields appropriately under each section in the form builder.
6. Preview the form in the live application and enter sample patient appointment records using the Submit button.
7. Open the **Appointment\_Booking\_Form Report** and verify that all five patient records are stored correctly, and open an individual record to check the complete details.

### OUTPUT

The screenshot shows the Zoho Creator form builder interface. On the left, the 'Basic Fields' panel contains icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. The main form area displays the 'Patient Details' section with the following fields: 'patient name' (with a trash icon), 'Age \*', 'Gender \*', 'Email \*', 'Contact number \*', and 'Residential Address'. Below these is the 'Medical Details' section with 'Referred\_by' and 'Department \*'. On the right, the 'Field Properties' panel for 'patient name' shows: Field name: patient name, Field link name: patient\_name, View Field References, Validation: Mandatory, and Display Fields: Prefix, First Name, Last Name (checked), and Suffix. The bottom of the interface shows a trial expiration notice: 'Trial expires in 12 days | Upgrade'.

Fig 1: Form builder – Patient Details section with field types and mandatory fields

The screenshot shows the form preview in Zoho Creator. The form is titled 'Appointment\_Booking\_Form'. On the left, a sidebar shows the 'Patient Appointment &...' section with options for 'Appointment\_Booking\_Form', 'Appointment\_Booking\_Form Report', and 'Appointment\_Booking\_Form'. The main form area displays the 'Patient Details' section with the following fields: 'patient name' (split into 'First Name' and 'Last Name' with a 'patient full name' label), 'Age \*' (with a 'patient age' label), 'Gender \*' (with radio buttons for 'Female', 'Male', and 'Others'), 'Email \*', 'Contact number \*' (with a country code dropdown showing '+91' and an input field with '81234 56789'), and 'Residential Address' (with an 'Address Line' label). The bottom of the interface shows a trial expiration notice: 'Trial expires in 12 days | Upgrade'.

Fig 2: Form preview – Patient Details (name, age, gender, email, contact number, address)

The screenshot displays a web browser window with the URL `creatorapp.zoho.in/menaha.r.2024.cse_rajalak390/patient-appointment-scheduling-management/#Form:Appointment_Booking_Form`. The page title is "Patient Appointment & Scheduling Management". The left sidebar shows the "Appointment\_Booking\_Form" selected. The main content area is titled "Appointment\_Booking\_Form" and contains the following sections:

- Address Line:** A text input field.
- City:** A text input field.
- State / Province:** A dropdown menu.
- Postal Code:** A dropdown menu with the value "-Select-".
- Country:** A dropdown menu.
- Medical Details:** A section header.
- Referred\_by:** A text input field.
- Department \*:** A dropdown menu with the value "-Select-".
- Multi Line:** A text input field.
- Existing Conditions \*:** A dropdown menu with the value "-Select-".
- Scheduling & Consent:** A section header.

A small thumbnail image of the form is visible in the bottom right corner of the main content area.

Fig 3: Form preview – Address and Medical Details section

The screenshot displays the same web browser window as Figure 3, but the "Scheduling & Consent" section is expanded. The form contains the following fields and options:

- Referred\_by:** A text input field.
- Department \*:** A dropdown menu with the value "-Select-".
- Multi Line:** A text input field.
- Existing Conditions \*:** A dropdown menu with the value "-Select-".
- Scheduling & Consent:** A section header.
- preferred appointment time \*:** A text input field with the placeholder "HH:mm:ss".
- Preferred appointment date \*:** A text input field with the placeholder "dd-MMM-yyyy".
- Consent for treatment \*:** A checkbox labeled "I Consent to examine and take treatment".
- Submit:** A blue button at the bottom of the form.

Fig 4: Form preview – Scheduling & Consent section with Submit button

The screenshot shows a web application interface for 'Patient Appointment & Scheduling Management'. The main content area displays a table titled 'Appointment\_Booking\_Form Report' with 5 patient records. The table has columns for patient name, Age, Gender, Email, and Contact number. The left sidebar contains navigation options: 'Appointment\_Booking\_Form' and 'Appointment\_Booking\_Form Report' (which is highlighted). The bottom status bar shows 'Menaha' and 'Showing 5 of 5'.

| patient name  | Age | Gender | Email                        | Contact number |
|---------------|-----|--------|------------------------------|----------------|
| krithika      | 20  | Female | krithi@gmail.com             | +914567890098  |
| kuashalini hs | 21  | Female | kusha@gmail.com              | +913456789098  |
| sairam r      | 23  | Male   | sairam34@gmail.com           | +913467890233  |
| Gunai v       | 23  | Male   | gunai74@gmail.com            | +9193473856392 |
| menaha r      | 20  | Female | menaharajkumar2208@gmail.com | +917809357860  |

Fig 5: Appointment\_Booking\_Form Report showing 5 patient records

The screenshot shows the detailed record view for the first patient, 'krithika'. The interface includes a sidebar with navigation options and a main content area with a table of patient records. The 'krithika' record is selected, and its details are displayed in a form on the right. The form includes fields for patient name, Age, Gender, Email, Contact number, Residential Address, Referred\_by, Department, Existing Conditions, Multi Line, Preferred appointment date, preferred appointment time, and Consent for treatment. The bottom status bar shows 'Menaha' and 'Showing 5 of 5'.

| patient name               | krithika                                                        |
|----------------------------|-----------------------------------------------------------------|
| Age                        | 20                                                              |
| Gender                     | Female                                                          |
| Email                      | krithi@gmail.com                                                |
| Contact number             | +914567890098                                                   |
| Residential Address        | no.8 govindamal street, malaysia , tamil nadu, 778930, Malaysia |
| Referred_by                | dr.menaha.gynacolgist                                           |
| Department                 | genrerai medicine                                               |
| Existing Conditions        | None                                                            |
| Multi Line                 | genearl checkup                                                 |
| Preferred appointment date | 30-Sep-2026                                                     |
| preferred appointment time | 01:10:22                                                        |
| Consent for treatment      | I Consent to examine and take treatment                         |

Fig 6: Detailed record view of a patient appointment (record 1)

The screenshot displays a web application interface for 'Patient Appointment & Scheduling Management'. The left sidebar contains a menu with 'Appointment\_Booking\_Form Report' selected. The main content area shows a list of patient names on the left and a detailed form for 'Gunal v' on the right. The form includes fields for personal details, medical history, and consent.

| patient name               | Gunal v                                                      |
|----------------------------|--------------------------------------------------------------|
| Age                        | 23                                                           |
| Gender                     | Male                                                         |
| Email                      | gunal74@gmail.com                                            |
| Contact number             | +9193473856392                                               |
| Residential Address        | no.34,kuruku sandu,ruwaise, uae, tamil nadu, 3874, Sri Lanka |
| Referred_by                | dr.venkatesan,ENT                                            |
| Department                 | Dental                                                       |
| Existing Conditions        | None                                                         |
| Multi Line                 | i hav a severe throat pain ,and gum pain                     |
| Preferred appointment date | 29-Sep-2026                                                  |
| preferred appointment time | 12:04:10                                                     |
| Consent for treatment      | I Consent to examine and take treatment                      |

*Fig 7: Detailed record view of a patient appointment (record 2)*

## RESULT

Thus, the **Appointment\_Booking\_Form** with Patient Details, Medical Details, and Scheduling & Consent sections was successfully created in Zoho Creator and sample patient appointment data was stored successfully.
