Create Blueprint Using Zoho Creator

Aim

To design and implement blueprints in Zoho Creator to manage the patient, doctor availability and visit record lifecycles in the Patient Appointment Management System.

Procedure

1 Open the Patient Appointment Management System application in Zoho Creator.

2 Navigate to Workflow → Blueprints.

3 Create a blueprint named `Patient Profile Approval` for the Patient Profile form with the stages Profile Requested, Profile Pending Approval, Profile Confirmed and Profile Rejected.

4 Create the `Patient Profile Lifecycle` blueprint for the Patient Profile form to manage the patient profile stages.

5 Create the `Doctor Availability Management` blueprint for the Doctor Availability form with the stages Availability Requested, Pending Approval, Confirmed, On Hold and Cancelled.

6 Create the `Visit Record Workflow` blueprint for the Visit Record form with the stages Visit Initiated, Visit In Progress, Visit Completed, Visit Follow-up Required and Visit Closed.

7 Add transitions between the stages (for example Submit for Approval, Approve, Reject, Start Visit, Complete Visit, Schedule Follow-up and Close Visit).

8 Click Save Blueprint, enable the blueprints and test them by processing records through each stage.

Output

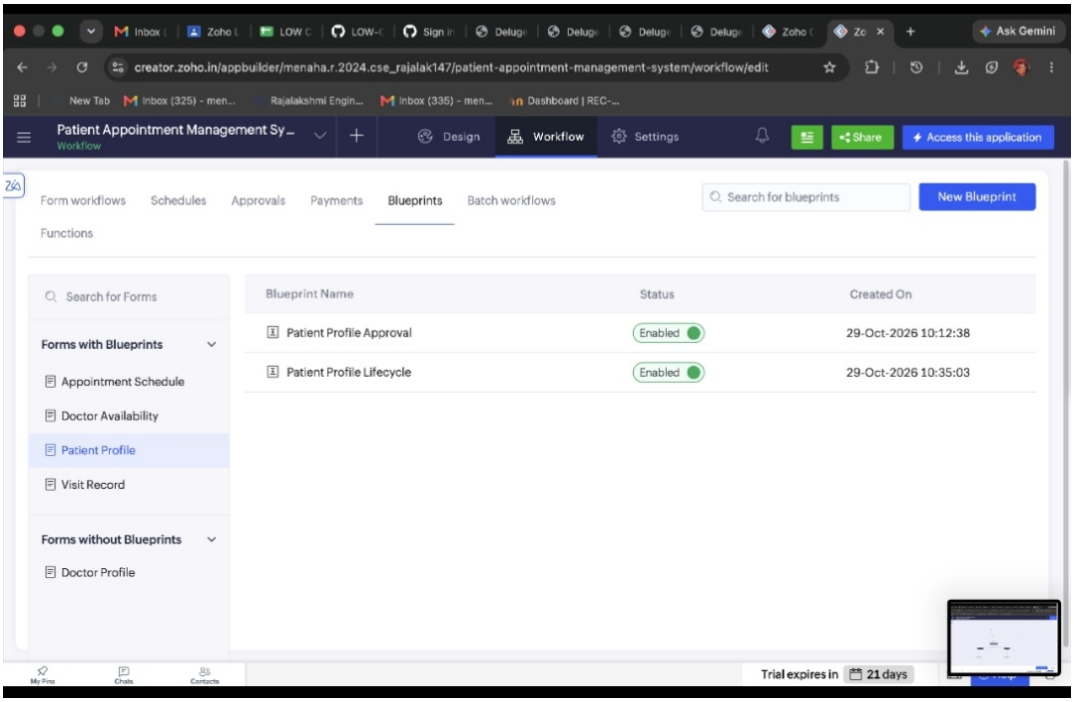

Fig 1: Blueprints list – Patient Profile (Approval and Lifecycle)

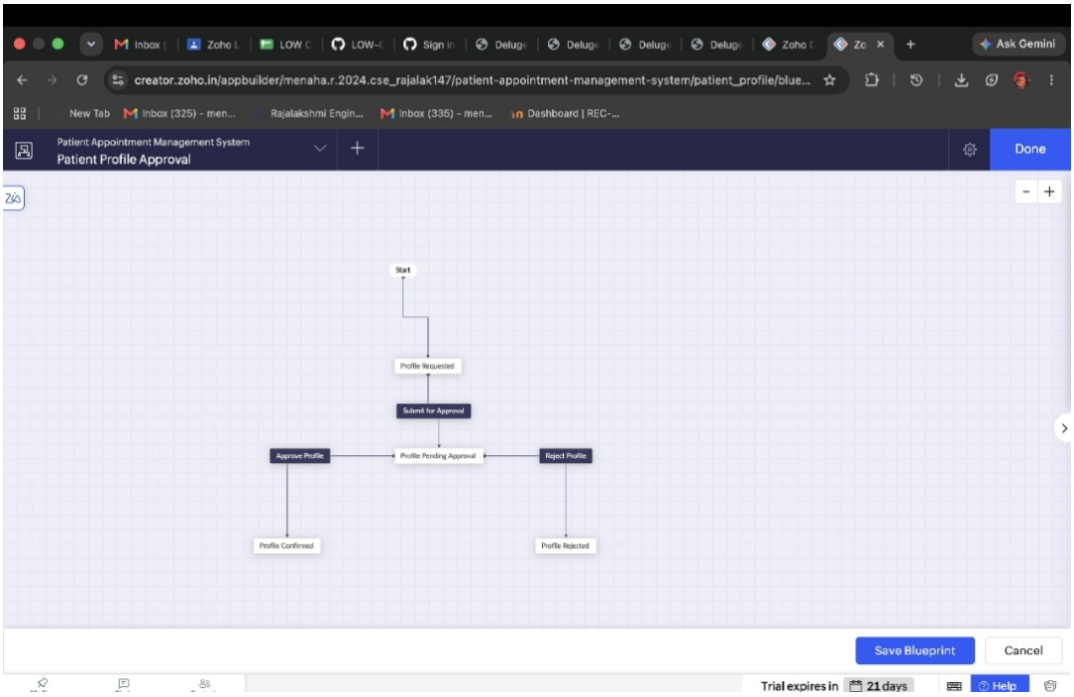

Fig 2: Patient Profile Approval blueprint

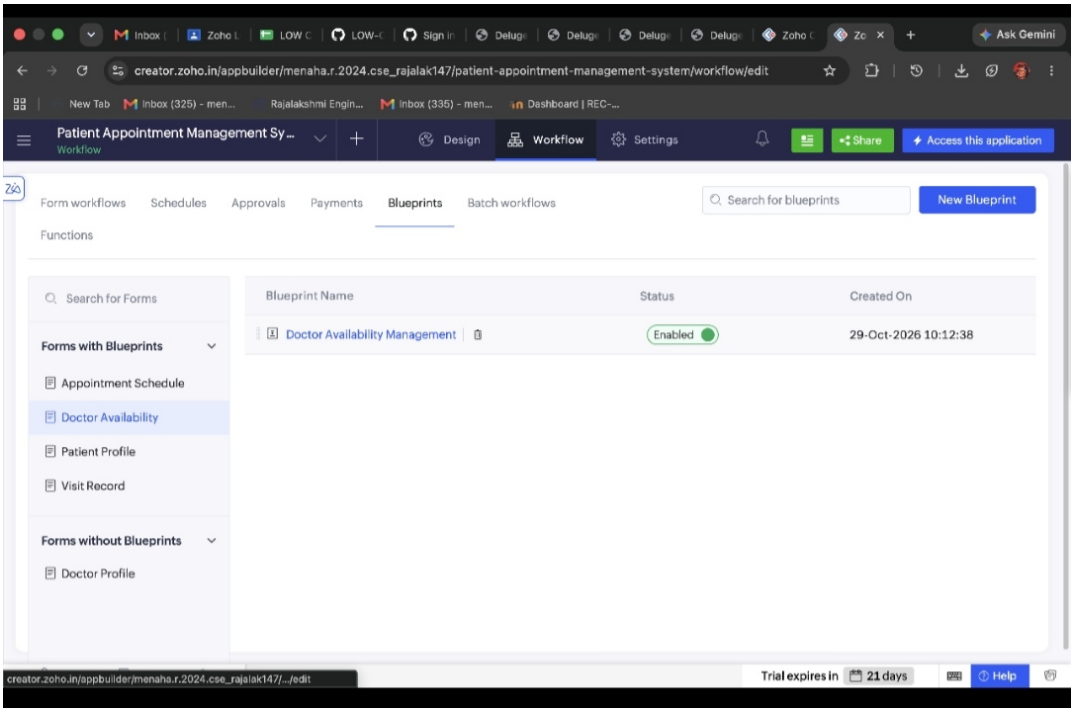

Fig 3: Blueprints list – Doctor Availability

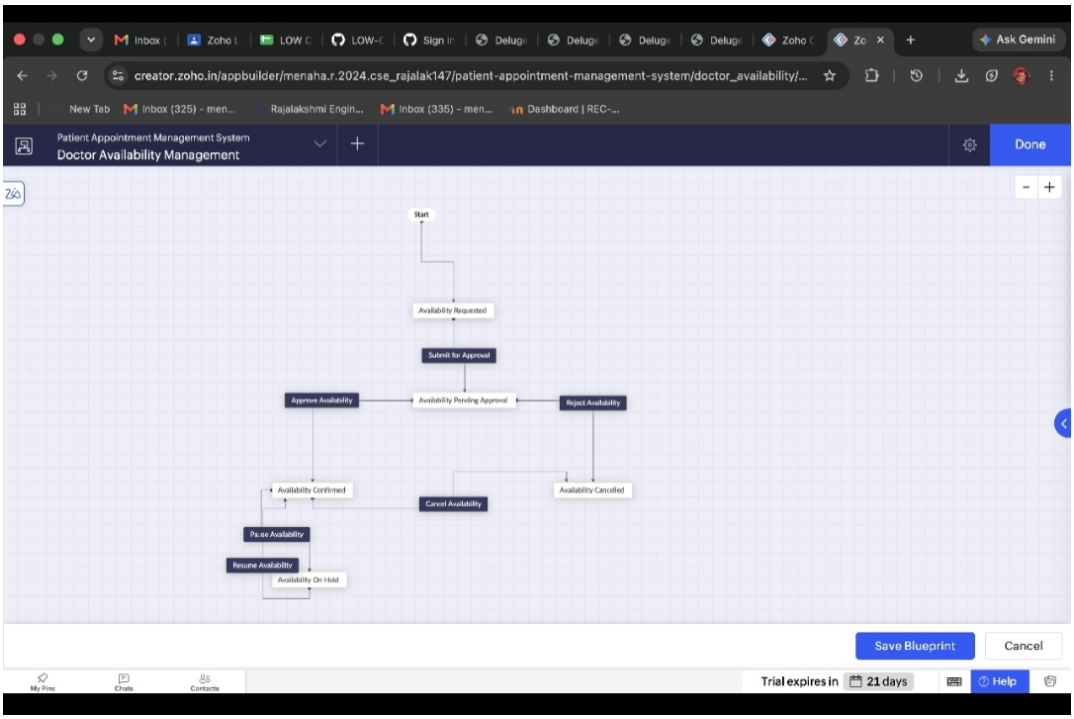

Fig 4: Doctor Availability Management blueprint

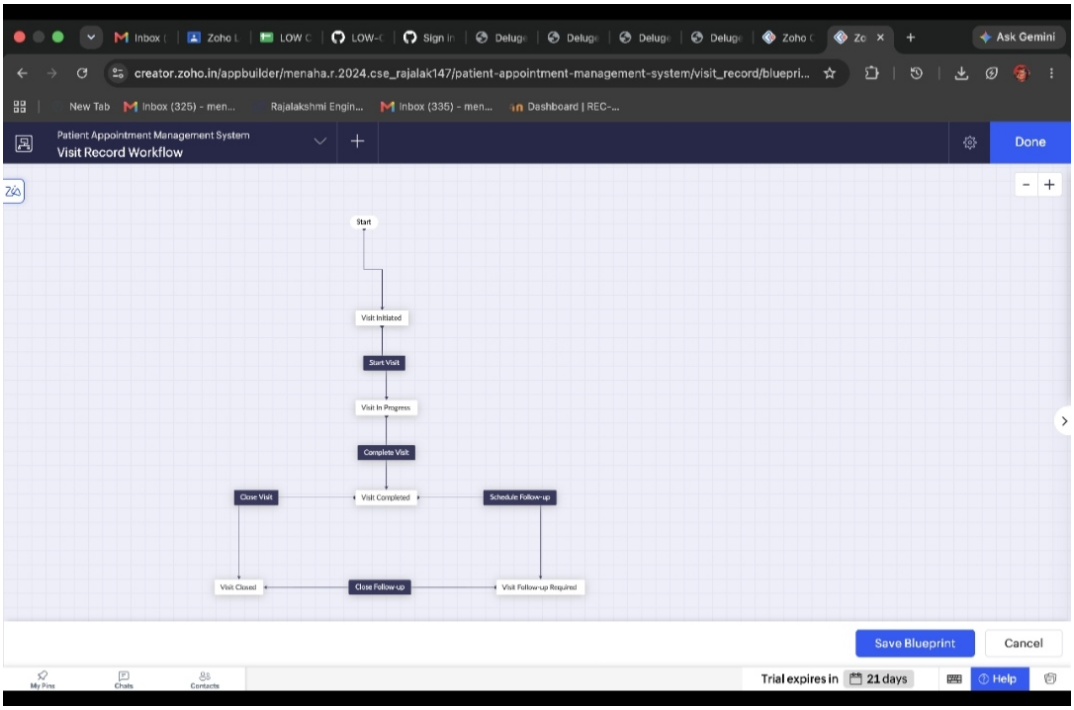

Fig 5: Visit Record Workflow blueprint

Result

Blueprints were designed and implemented in Zoho Creator to manage the patient profile, doctor availability and visit record lifecycles in the Patient Appointment Management System.
